

Job Title: Junior Data Scientist (Student)

Position Overview:

We are looking for a highly motivated Junior Data Scientist who is passionate about data analysis, machine learning, and problem-solving. As a student, you will have the opportunity to work closely with our data science team, gaining hands-on experience and contributing to real-world projects. This position offers a unique chance to apply your academic knowledge in a professional setting, while also learning from our industry experts.

Responsibilities:

Collaborate with senior data scientists and cross-functional teams to understand project requirements and objectives.

Assist in collecting, cleaning, and preprocessing data for analysis.

Utilize statistical techniques and machine learning algorithms to extract insights and solve complex problems.

Develop and implement data models and predictive analytics solutions.

Conduct exploratory data analysis to discover trends, patterns, and correlations.

Qualifications:

Currently enrolled in a Bachelor's or Master's degree program in Computer Science, Data Science, Statistics, Mathematics, or a related field.

Strong understanding of data analysis concepts, machine learning algorithms, and statistical methods.

Proficiency in programming languages such as Python, R, or SQL.

If you find this opportunity intriguing, please don't hesitate to reach out to us using the contact details provided below.
