Job Title: Junior Python Developer (Student)

Position Overview:
We are looking for a highly motivated Junior Python Developer who is currently pursuing their studies and eager to gain practical experience in software development.

Responsibilities:
Collaborate with senior developers to understand project requirements and objectives.
Assist in developing, testing, and maintaining Python-based software applications.
Write clean, efficient, and maintainable code following best practices and coding standards.

Qualifications:
Currently enrolled in a Bachelor's or Master's degree program in Computer Science, Software Engineering, or a related field.
Proficiency in Python programming language and familiarity with its ecosystem (e.g., libraries, frameworks).
Strong problem-solving skills and attention to detail.
Experience with version control systems (e.g., Git) is a plus.
Ability to work independently as well as collaboratively in a team environment.
Effective communication skills and willingness to learn from others.
Passion for software development and a desire to grow in the field.

If you find this opportunity intriguing, please don't hesitate to reach out to us using the contact details provided below.
